SCHOOL REPORT.

In making my report this year I have concluded to depart from the usual custom of criticising or praising the work of each teacher, separately and in detail, for the reason that the law does not require it, and that such a course must cause unpleasant feelings in the minds of some.

The schools under my own supervision, have been, on the whole, very successful.

The teachers were persons of experience in teaching, and well known in the community, with the exception of the teachers in District No. 7, and the Summer term of No. 6; and these labored earnestly for the good of thier pupils, and, I believe, lack nothing as teachers but what experience will supply.

The Rev. Mr. Lyford,* who superintended the schools in the west part of the town, considered them successful, and that several of the teachers employed there were superior teachers, and, indeed, that the schools with one exception, were excellent.

The whole number of scholars enrolled during the past year, and attending school, is 359, and the number not attending school, as reported in the teacher's returns, only 4, making in all, 363. This enumeration has been made with the utmost care; so I believe that no one name has been counted twice, and shows an increase of the number attending school, and a decrease in the number not attending. Two years ago, the whole number of children in town, legally scholars, was 328, of whom 16 did not attend school.

Inspection of the registers shows a very great improvement over the past two years in the point of punctuality and regularity of attendance, which is a very encouraging feature; and in this direction teachers and committee should not cease their efforts, nor parents and citizens to lend their aid.

*In consequence of Mr. Lyford's absence, it was arranged that I should report all the schools.

The names upon the "Roll of Honor" in the several districts, are as follows:—

DISTRICT NO. 2.

Geo. W. Nickerson, Abbie M. Davis, Susan G. Lovejoy, Nellie Meloon, two terms; Harry Bickford, John A. Davis, Smith H. Paine, Charlie E. Meloon, Lillian Nickerson, Flora M. Knowles, Carrie F. Wiggin, one term.

DISTRICT NO. 15.

Cora Edgerly, Ella May Dow, Lura Chase, Warren E. Smith.

DISTRICT NO. 16.

Victoria Randlett, Lizzie Bell Randlett, Clara F. Knowlton, Frank Davis, John Randlett, Charles W. Randlett.

DISTRICT NO. 17.

Charlie F. Robinson, Charlie L. Smith.

Nearly all have attended to reading and spelling; to penmanship, 167; arithmetic, 282; geography, 154; grammar, 101; history, 32; composition, 79; the higher branches, 27.

Complexity and confusion in text books still exists much to the detriment of our schools.

I wish to recommend to the consideration of the citizens of the west part of the town, the consolidation or uniting of districts. It seems to me that the four districts, Nos. 12, 15, 16, and 17, should be united so as to form but two. By referring to the records it appears that No. 16 has but seven scholars, and that three of these attended school in No 12 during the first term, and five during the second, and paid tuitions. Why not unite these districts, and thereby increase the length of the terms, and decrease

the expense? It is true that in uniting 15 and 17 some scholars would have a long distance to travel ; but a law passed in 1878 enables districts to employ ten per cent. of the school money for the conveyance of scholars living more than a mile and a half from school. It appears, also, that in district No. 12, it costs about forty-three cents per week for each scholar, and in 16 thirty-four cents ; while in No. 5 the average cost is only about twenty, and in 9 and 10, only about eighteen cents per week,—another strong argument in favor of uniting districts.

Another point which demands attention, is the imperfect manner in which several of the registers have been kept and made out during the past year. I would refer in particular to the register from No. 12, and the record of the last term in 9 and 10.

The law requires that “Every teacher, at the close of his school and at the end of each term thereof, SHALL make a return of such register or record to the school committee of the town, who shall give to him a certificate thereof; and NO TEACHER shall receive payment for his services until such certificate is produced and delivered to the prudential committee.”

I would urge the *strict observance* of this law by *every* prudential committee.

Respectfully submitted,

HAVEN PALMER. *School Committee.*

Report of the Board of Education.

The several departments were under the instruction of the same teachers as last year.

Miss Emma W. Cox sustained, fully, the reputation as a successful teacher she so early secured. The discipline and methods of teaching in the several terms, were highly commendable.

Miss Angelia A. Smith did all that could reasonably be expected under the circumstances. The intermediate school has, under our present system of grading, pupils thrust upon it from the over-crowded primary, regardless of their merits for promotion; and the best scholars are sent to the higher school, to give room for the exodus from the primary, really leaving for the teacher in this school a large per cent. of inferior pupils, an evil your committee see no way to remedy till a better system of grading and classifying is adopted.

Mr. E. K. Smith has given, as formerly, a large amount of work toward the advancement of the pupils under his charge.

Our bad system of grading works to the disadvantage of this school; accessions to this department are by classes rather than by merits of individual scholars.

Your committee are unanimous in recommending grading and classifying according to advancement and merits of the individual, and a reduction of the number of classes by regulating the studies in each term, believing that the desired results will not be effected till some more rational system be adopted than now exists.

Respectfully,

J. W. LANG, JR.,	} Board of Education.
